Rotary Means Business Fellowship Board of Directors Election, 2023 Candidates' Statements of Qualifications

Rajamohan Dhandapani -- incumbent, Secretary -- RMB member since 2015, Coimbatore, India

I am living in Coimbatore which is an industrial city located in South India. I belong to RMB Coimbatore chapter which is part of RI District 3201. We are the first official chapter from India and our charter number is 7.

I am a founding member of this Chapter and I am also the past Chairman. I have been active in working to create more chapters for our fellowship and I have successfully launched more than 12 chapters in Tamil Nadu and several others across the country.-

My long term goal for RMB is to launch one chapter in every country on the globe where RMB fellowship is not present and to start one chapter in every RI District of India where our fellowship has no chapter representation.

I have been working with the RMB Fellowship closely as a Board member as well as Secretary since 2018. I have sizable experience in working with the Board, launching RMB chapters, mentoring, conducting training programs and networking events. I would like to work towards my goals for the fellowship which prompts me to nominate myself for the forthcoming elections to the Board of our prestigious fellowship.

Kanak Jain -- incumbent, Director -- RMB member since 2016 -- Kolkata, India

Rotary Means Business Fellowship is one of the most exciting and much-required fellowships in the world of Rotary. Across the world, the acceptance of business networking among Rotary members is increasing. The trust which is there for over a hundred years was somehow getting converted into business earlier also. But now officially through this fellowship networking has become very easy and acceptable. This networking not only ensures bonding amongst the Rotary members but it also ensures that business networking is also done across the country and beyond countries borders. More and more Rotary members are getting attracted through this fellowship. And when people do business within the Rotary network they make it a point to contribute to TRF also.

let's Grow multiple levels and multiple cities. Let's make this reality manifest for all rotary members.

Sanjaykumar Tiwari -- candidate -- RMB member since 2018 -- Maharashtra, India

My Rotary History:

2009-10 I joined Rotary

2011-12 Best Rotarian Award at club level in 2011-12 and 12-13

2012-13 Best Rotarian Award (again), Governor Excellence Award, and Five Avenues of Service Award

2014-15: Club President, Best Performing President Award and PLATINUM Award President

2015-16 : Avenue Co-chair for Environment, Avenue Co- chair TB Eradication, District Co-Ordinator : TB Awareness

2016-17 : Avenue Chair : Thrust area Skill Development

2018-19 : Assistant and Assistant Governor

Founder and Chairman of world's fastest growing Rotary Means Business chapter: RMB District 3142 Corporates. My chapter has crossed 135 crores INR Business Transaction. We are a Large Multi District chapter . With my unique strategy we brought Rotarians under one business platform in spite of traditional resistance that rotary is not a business platform.

I am trainer for Public speaking and Anchoring shows and a Motivational trainer.

I am a Paul Harris Fellow ; Paul Harris Society member and Benefactor.

My purpose of initiating our RMB chapter is to make Rotary self sufficient. I want to make Rotarians so strong economically that there shall be no crunch of funds at local, national or international level. We shall have our own great network where we can have over 0.3 million members doing business of billion dollars and then donating to TRF which shall supercede all the collections we could generate in past without wandering here and there for donations .

My strength is whatever I do , I do it very passionately and don't take rest till I succeed. I want RMB to one of the most successful business club as this is not just a business club , it has a purpose.

My tag line is "LET US CONNECT TO GROW: AND vision is Self Sufficient Rotary
