A MESSAGE FROM THE CHAIR

Dear Fellow RMBF Members,

It gives me immense pleasure to welcome you to another edition of RMBF News.

As we continue our journey together, I am reminded that the real strength of Rotary Means Business Fellowship lies not simply in the number of chapters or members we have, but in the relationships, trust and business opportunities we create for one another.

Our Fellowship is growing, and with growth comes responsibility.

It is important that every chapter remains vibrant, active and aligned with the RMBF policies, bylaws and branding guidelines.

Consistency across our global network will strengthen our identity and help us build greater credibility within the Rotary family and the wider business community.

I am particularly encouraged by the enthusiasm being demonstrated by our chapter leaders and members across different regions.

Leadership training, networking meetings, visitor days, business referrals and fellowship activities are helping us create stronger connections and a more engaged RMBF community.

At the same time, I encourage every member to look beyond simply attending meetings. Come prepared to connect, contribute, refer and collaborate.

Every member has the ability to open a door for another member. That is the true meaning of Business through Relationships.

RMBF News is also becoming an important platform to share our achievements, recognise our chapters and members, and communicate opportunities across our global Fellowship.

I encourage chapters and members to actively contribute their success stories, events and initiatives.

As we move forward, let us remain united by our common purpose and committed to building an RMBF that is professional, transparent, vibrant and globally connected.

Thank you to every leader, chapter and member for your continued support and commitment.

Together, let us build stronger relationships, create more opportunities and make RMBF a truly global business fellowship.

With warm regards,

Rtn. Arvind Kumar Batra
International Chair – RMBF

A NEW CHAPTER OF LEADERSHIP, BUSINESS & FELLOWSHIP

RMBF MUMBAI INSTALLATION CELEBRATES LEADERSHIP, COLLABORATION AND THE SPIRIT OF BUSINESS NETWORKING

The vibrant city of Mumbai witnessed a memorable milestone for Rotary Means Business Fellowship (RMBF) on **26 July 2026 at Hotel Taj Santacruz, Mumbai**, as Rotarians, business leaders and RMB members from across India came together for the installation of the new international leadership team and the official welcome of participating RMB chapters.

The programme marked the installation of Rtn. Arvind Kumar Batra as International Chair, Rotary Means Business Fellowship, along with Rtn. Dr. Ashok Sharma as International Vice Chair and Rtn. Robert Stezinar as International Secretary.

A special video message from Rtn. Sunil Sharma, International Treasurer, RMBF, was also presented, adding a warm international dimension to the celebration.

The distinguished celebrity guests for the occasion were Bollywood actor Pawan Shankar and his wife Yukti Shankar Pandey, whose presence added glamour and energy to the event.

AN AUSPICIOUS BEGINNING

The evening began with the traditional lamp lighting ceremony, symbolising knowledge, leadership, hope and a bright new

beginning for RMBF. The lamp was lit by International Chair Rtn. Arvind Kumar Batra, First Lady International RMBF Sunita Batra, International Vice Chair Rtn. Dr. Ashok Sharma and Mrs. Vaishali Sharma, Rtn. Robert Stezinar, celebrity guests Pawan Shankar and Yukti Shankar Pandey, and RMB Mumbai Chairperson Asha Narang.

The ceremony beautifully reflected the spirit of fellowship, with leaders, spouses, guests and members coming together to begin a new chapter of RMBF's journey.

LEADERSHIP BEFORE INSTALLATION

The programme began with a focused Leadership Training Programme conducted by International Chair Rtn. Arvind Kumar Batra. The session focused on leadership responsibilities, strengthening chapters, member engagement, effective and communication and creating a more dynamic result-oriented RMBF network.

This was followed by an important session on RMBF Branding Guidelines, conducted by Rtn. Dr. Ashok Sharma, International Vice Chair. The session highlighted the importance of maintaining consistency, professionalism and integrity in the

use of RMBF identity and communication across chapters.

Rtn. Robert Stezinar, International Secretary, then introduced members to the vision and opportunities associated with RMBx – Rotary Business Exchange, highlighting how the initiative can create meaningful business connections and expand the global business networking ecosystem within Rotary.

THE RMBF BUSINESS EDGE

Practical Insights for Business Owners

From the Ashes of London:

What Three and a Half Centuries of Fire Insurance Still Teach Business Owners

For the members of Rotary Means Business Fellowship, worldwide

Insurance is the largest business almost nobody thinks about, a global property and casualty market worth some 2.4 trillion dollars a year. What it sells is permission to take risks no single business could carry, and the record shows most of us buy that permission badly.

The industry was born after the 1666 Great Fire of London destroyed thirteen thousand houses without compensation. Even its founding legend deserves scrutiny, because historians reviewing the contemporary record found no real evidence that private brigades let uninsured buildings burn. An industry that mythologizes its past deserves owners who read evidence rather than folklore.

The modern evidence points one way, and broker valuations found 59 percent of commercial clients underinsured, needing sums insured raised by 58 percent on average. A Kroll appraisal study put the figure near 90 percent of buildings examined. Yet the record also cuts the other way, which matters just as much. Britain's Supreme Court ruled substantially for policyholders in the 2021 business interruption test case, affecting some 370,000 firms. Indian regulation now waives underinsurance of up to 15 percent on standard small enterprise fire policies. After the 1906 San Francisco fire, Lloyd's paid claims in full while several European insurers offered 75 percent settlements or simply denied liability.

Wording is contestable, the average clause is negotiable, and your choice of insurer is itself a risk decision.

A Real-World Example

A trader carried cover of 1,000,000, set at founding and never revisited, in whatever currency you please. Fire struck at peak season with stock at 1,600,000, and the adjuster assessed the damage at 600,000. The averaging provision cut the claim to 375,000, roughly 350,000 after excess, purely because the sum insured was stale.

The trader still did five things right

Written notification within twenty-four hours, fire service and police reports obtained, salvage left untouched until inspection, full documentation assembled within a week, and an interim on-account payment requested. Purdue research after Hurricane Katrina confirms the stakes, finding insured firms significantly likelier to survive.

The Rotarian's Action Point

Open your policy this week and check three lines: sum insured against genuine peak stock, a declaration clause for moving inventory, and business interruption cover. Revision costs a modest premium, while the alternative costs the business.

“Contributed in the spirit of Service Above Self, and of sound underwriting.”

**RMB Nagpur Demonstrates the Power of Relationships,
Referrals & Personal Connects**

*Relationships
Create
Opportunities*

One of the most powerful aspects of the Rotary Means Business Fellowship (RMBF) is the ability to transform professional relationships into meaningful business opportunities. A remarkable example of this impact comes from RMB Nagpur Chapter, where a simple request for a business connect ultimately resulted in an order worth ₹35.14 Crores

On 5th August 2026

RMB Nagpur member Rtn. Pankajh Upadhyay was approached for a business connect. Responding immediately, Pankajh personally reached out and identified a strong connection at **L&T Construction, Nagpur**.

On 6th August 2026

Pankajh personally accompanied **Dr. Depesh Bhartia**, Secretary of **RMB Nagpur** and **Director of FabriXcel Pvt. Ltd., GRESPL, Fabtech & Fabrimax Engineering Pvt. Ltd.**, to an important meeting at the **L&T Construction Nagpur office**.

Post Meeting

The meeting proved to be a significant turning point. Through Pankajh's relationship, credibility and personal introduction, the conversation progressed beyond a simple referral and opened the door to a much larger business opportunity.

Next Steps

Following the Nagpur meeting, the company was referred to the L&T Head Office, and within just a few days, the L&T team visited Nagpur on **10 August 2026** to evaluate the plant's capabilities and discuss the proposed contract.

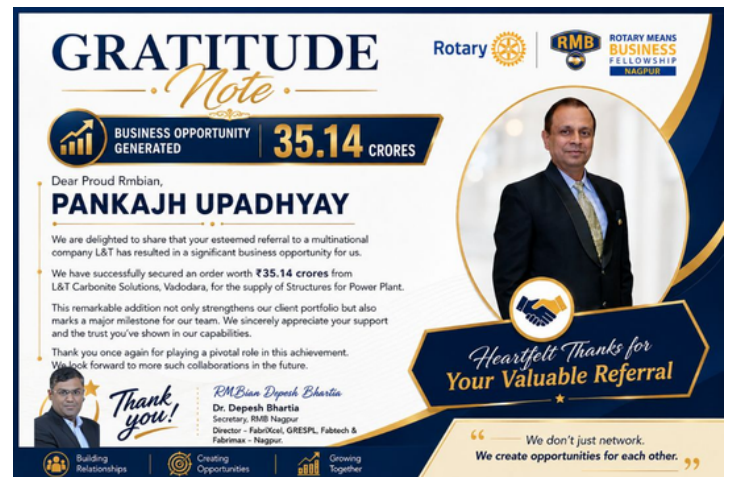

25th August 2026

The efforts culminated on **25 August 2026**, when the business opportunity officially converted into an order valued at an impressive **₹35.14 Crores**, with the agreement formally signed on the same day.

Congratulations to **Rtn. Pankajh Upadhyay** and **Dr. Depesh Bhartia** for demonstrating the true spirit of RMB networking and for showing how a trusted relationship can create extraordinary business results.

The **RMB Nagpur** success story reinforces the core philosophy of the Rotary Means Business Fellowship — **Connect, Refer, Support and Grow Together**.

One of the most often asked question by members as well as chapter leaders is about the RMB logo and its usage. We always share RMBF Brand Guidelines document to them or request them to download it from www.rotarymeansbusiness.org.

This is a guideline to make you easily understand about 3 types of Logos and its usage. Hope this will be a ready reckoner for you.

(1) Logo of RMB Fellowship

Question: Who can use this?

Answer: ONLY the fellowship office or the Fellowship Directors can use this logo in their official communication / documents.

Note : Chapters and Members of the fellowship should NOT use this logo.

(2) Logo of RMB Fellowship Chapters:

Answer: Use only Myriad Pro, Bold Italics.
